

Innovation Competition

Got a big idea? Fed up with pollution in your neighbourhood? Tired of litter piling up on the beach? Have an innovative solution to a BIG problem?

The Rotary Club wants to hear from you! We're on the lookout for the next generation of creative minds to tackle real-world problems with innovative engineering ideas that can make a difference.

Can you:

- design technology to make our communities safer?
- invent a gadget to make everyday life easier?
- create a solution to turn waste into something useful?
- develop technology for cleaner oceans?
- make learning more accessible for everyone?
- design a gadget, device, or system that could make the world a better place?

This is your chance to present your ideas and win up to £300!
Join now and help to shape the future!
